AMENDMENT

Commissioner for Patents:

In response to the Office Action mailed January 4, 2002, please amend the application as follows:

In the Specification:

Please replace the paragraph beginning at page 1, line 13, with the following rewritten paragraph:

To obtain a ramp loading system, it is mandatory to have a signal at least proportional to the speed of the motor, in order to have a good control of the positioning of the read/write transducer heads.
